ICC Docket No. 14-0312

Commonwealth Edison Company's Response to
Retail Energy Suppliers Association ("RESA") Data Requests
RESA 2.01 – 2.17
Date Received: June 10, 2014
Date Served: June 25, 2014

REQUEST NO. RESA 2.07:

ComEd Ex. 3.03 pp. 97 through 112 (of 342) provides a list of outside professional services:

a. Are the costs of these services recovered through delivery service rates?

b. If the answer to (a) is yes, identify each professional service expense that is recovered through delivery service rates.

c. If the answer to (a) is yes, for each professional service, identify the amount that is being recovered through delivery service rates.

d. Did ComEd allocate the cost of any of these professional services to supply service?

e. If the answer to (d) is yes, identify each professional service expense that is allocated supply service.

f. If the answer to (d) is yes, for each professional service, identify the amount that is being recovered through supply service.

g. For each listed service for which the annual costs were greater than $100,000, provide a copy of the engagement letter.

h. For each listed service, identify the specific service provided by the outside professional. If the outside professional service is related to a regulatory or legal proceeding, identify the proceeding and case number.

RESPONSE:

a. In part. ComEd Ex. 3.03, Page 97-112 (Schedule C-6.2 at 1-16) represents expenses related to outside services by payee by FERC Account for costs that were incurred in 2013. The attachment labeled as RESA 2.07_Attach 1 is a summary of all the 2013 vendor costs in Schedule C-6.2 by FERC Account showing the amount that is currently being requested for recovery in the instant docket.

b. See Column (O) of the attachment labeled as RESA 2.07_Attach 1 for amounts included in the revenue requirement in this proceeding.

c. See ComEd's response to subpart (b), above.

d. Yes. In accordance with ComEd's Rider PE, Purchased Electricity Price, Original Sheet No. 317.1, (iii), for the costs in 2013 shown in the attachment labeled as RESA 2.07_Attach 1 (see footnote (l)), a total of approximately $187,000 of A&G contractor costs are estimated to be allocated to supply service for supply rates in effect starting June 1st, 2015.

e. The $187,000 of professional services discussed in ComEd's response to subpart (d), above, is not the result of specific identification of vendors but rather is an allocated portion of each vendor included in jurisdictional A&G costs multiplied by the change in the Wages & Salaries (W&S) allocator of 0.39% as described in footnote (1) of the attachment labeled as RESA 2.07_Attach 1.

f. See ComEd's response to subpart (e), above.

g. ComEd objects to this request in that it seeks documents that are not readily available and that would be burdensome to identify and collect.

h. ComEd objects to this request in that it seeks information that is not readily available and that would be burdensome to identify and produce. Subject to the foregoing objection and ComEd's General Objections, ComEd responds as follows:

In Column (E) of ComEd Ex. 3.03, Pages 97-112 (Schedule C-6.2 at 1-16), the nature of the service provided by each specific professional service is listed. In ComEd Ex. 3.04, Page 39 (WPC-1h), total costs by distribution proceeding is listed. Professional service costs by outside professional by regulatory or legal proceeding is not readily available.
