Re: Request of Retail Energy Supply Association, NRG Energy, Inc., and CleanChoice Energy, Inc., to Modify the Commission's December 17, 2024, Supplier License Renewal Notice

Dear Mr. Johnston:

The Retail Energy Supply Association ("RESA"),¹ NRG Energy, Inc., and CleanChoice Energy, Inc. ("CleanChoice") (collectively, the "Supplier Coalition"), by counsel, request that the Commission modify and clarify certain issues in the Commission's *Notice of SB 1 Supplier Licensing Expirations and Renewal Applications, and License Forms for Energy Vendors and Energy Salespersons*, issued on December 17, 2024 (the "Notice").²

The Notice implements provisions in SB1 requiring current electricity and natural gas suppliers to renew their licenses over a three-year period ending July 1, 2027. The Supplier Coalition appreciates the Commission's and Staff's efforts to facilitate the transition to the renewal process. Unfortunately, the Supplier Coalition was not involved in the Staff presentation referenced in the Notice and did not have a chance to comment on the proposed dates and timelines before the Notice was issued. As a result, the Notice added to the existing confusion and uncertainty regarding SB 1 implementation. For the reasons explained below, RESA requests that the filing dates be modified to ensure a smoother transition to the new three-year renewal cycle.³

¹ The comments expressed in this filing represent the position of RESA as an organization but may not represent the views of any particular member of the Association. Founded in 1990, RESA is a broad and diverse group of retail energy suppliers dedicated to promoting efficient, sustainable and customer-oriented competitive retail energy markets. RESA members operate throughout the United States delivering value added electricity and natural gas service at retail to residential, commercial and industrial energy customers. More information on RESA can be found at www.resausa.org.

² A copy of the Notice is attached as **Attachment 1**.

³ This request addresses the Notice's provisions that implement the SB1 transition to three-year licenses for retail suppliers. It does not involve issues related to energy vendors or salespersons.

First, SB1's amendments to § 7-507 of the Public Utilities Article ("PUA") regarding licensing apply to suppliers serving residential customers. This is a common theme throughout SB1, which is not intended to affect non-residential customers or their suppliers. Section 5 of SB1 provides instruction on the transition to three-year licenses but does not single out residential suppliers. Thus, as a threshold issue, the Commission will need to decide whether SB1 requires suppliers that do not serve (and who are not licensed to serve) residential customers to seek a renewal of their respective licenses.

Second, the Notice requires the specified suppliers listed in Attachment A of the Notice to file their renewals by January 15, 2025, and the Commission will send a warning/revocation notice on January 3, 2025 "to suppliers who have not yet filed renewal applications." These dates appear to be in the wrong sequence. It makes no sense to send a revocation notice before the date on which the applications are to be filed. It appears that the January 3 date may have been a typo, and that date was intended to be January 30 or 31.

Third, notwithstanding the confusion created by the January 3 date listed in the Notice, the Notice was issued during the holiday and end-of-year period. The Notice includes an application form and, as written, gives suppliers only two-and-a-half weeks over the holidays to prepare and submit license applications before receiving revocation notices on January 3rd. RESA members are generally concerned that their employees responsible for preparing the renewal applications are out of the office, taking time off for the holidays, through the end of year and will not be able to begin preparing the application until early January. These filings require significant internal attention and approvals. While some of the questions are easier than others, some – such as Question No. 4 on the renewal application – may require substantial attention and resources.⁴

Additionally, the application seeks information on how the supplier intends to comply with certain aspects of SB 1 on which the Commission has not yet ruled. These include how you intend to comply with the SB 1 purchase of receivables ("POR") prohibition and price caps. Once there is a ruling(s), each supplier will need to determine how they intend to comply.

Furthermore, from a practical perspective, the Notice requires all suppliers on the list to file by January 15, but their individual licenses expire at different times from February 28 to June 30, 2025.

Finally on this point, the Notice provides that the supplier must have completed the new training module before the license expiration date. Licenses for certain

⁴ Question 4 requires the supplier to provide a statement specify how the supplier is in compliance with all of Maryland's supplier requirements.

suppliers in Attachment A to the Notice expire on February 28, 2025. The current training slide decks are over 400 slides, are not yet final until the Commission issues decisions on SB 1-related issues, and will require testing for each supplier. The February 28 suppliers are being put in a rushed position with respect to completing the training module as compared to other suppliers.

Given these considerations, the Supplier Coalition requests that the Commission modify the filing date in the Notice. Specifically, the Supplier Coalition requests that the filing dates for each supplier be 30 days before their license is set to renew. This is the same timing utilized in New Jersey for license renewals and treats all suppliers equally with respect to timing. The Supplier Coalition asks that the license expiration dates for suppliers with licenses set to expire on February 28, 2025, and March 31, 2025, be moved to April 30, 2025, and May 31, 2025, respectively, and the initial filing date (for those expiring April 30, 2025) would be April 1, 2025. This timeline would stay within the statutory timelines in SB1 and would allow for a smoother transition to the new renewal cycle. This request does not affect the expiration dates for suppliers on Attachment A other than those scheduled to expire on February 28 and March 31, except it would modify the filing deadline for all suppliers (obviating the January 15 date). To the extent a supplier does not file on time, a warning letter would be issued 15 days (or the following business day) after the date has passed.

Proposed Revised Renewal Licensing Dates			
License Expiration Date in the Notice	Proposed Revised Expiration Date	Current Filing Deadline and Revocation Notice Date	Proposed Revised Filing Deadline and Revocation Notice Date
2/28	4/30	1/15; 1/3	3/31; 4/15
3/31	5/31	1/15; 1/3	5/1; 5/16
4/30	4/30 (same)	1/15; 1/3	3/31; 4/15
5/31	5/31 (same)	1/15; 1/3	5/1; 5/16
6/30	6/30 (same)	1/15; 1/3	5/31; 6/16

The modifications requested above are intended to enable a reasonable transition to the renewal cycle and are based in part on experiences from other jurisdictions with similar requirements. Under this revised filing timeline, the Commission and all suppliers will continue to comply with the timeline in SB 1, and the Commission will receive information in the renewal applications that is more complete than it otherwise would be.

Given the upcoming January 15 filing date – not to mention the January 3 “warning” date – the Supplier Coalition respectfully requests that the Commission consider this request at its next available Administrative Meeting.

Please feel free to contact me with any questions regarding this filing.

Sincerely,

/s/ Brian R. Greene

**NOTICE OF SB 1 SUPPLIER LICENSING EXPIRATIONS AND RENEWAL
APPLICATIONS, AND LICENSE APPLICATION FORMS FOR ENERGY VENDORS
AND ENERGY SALESPERSONS**

To: All Maryland Regulated Gas and Electric Utilities and Retail Gas and Electric Suppliers

Senate Bill 1 ("SB 1"), enacted after the 2024 Session of the General Assembly and effective July 1, 2024, includes new and amended licensing requirements for electricity and gas salespersons and suppliers, to be implemented and enforced by the Maryland Public Service Commission. Specifically, Section 4 of SB 1 requires the following:

- (1) The licenses of electricity suppliers and gas suppliers that are licensed by the Public Service Commission as of July 1, 2024, shall expire on a staggered basis as determined by the Commission, such that equal numbers of licenses shall expire throughout each of the following three years but not later than June 30, 2027;
- (2) The licenses of energy salespersons who are licensed by the Commission on or before June 30, 2027, shall expire on a staggered basis as determined by the Commission, such that equal numbers of licenses shall expire each year; and
- (3) All new and renewed licenses for electricity suppliers, gas suppliers, and energy salespersons shall be for a term not exceeding 3 years.

This Notice finalizes the Commission's decisions regarding staggered supplier license expirations and renewals, as well as the terms and expiration of the new salesperson and vendor

licenses. In addition, the Commission also approves the supplier renewal form, as well as the vendor and salesperson license applications recommended by Staff, with certain revisions.¹

November 8, 2024, the Commission's Technical Staff ("Staff") presented to the Commission a draft renewal application for energy suppliers, a draft initial licensing application for energy vendors and energy salespersons, to begin July 1, 2025, the proposed dates for the expiration of the first one-third of the group of expiring supplier licenses,² and other related filing deadlines. Staff requested that the draft applications be approved and posted on the Commission's website.

Additionally, Staff recommended that one-third of existing supplier licenses shall expire incrementally between February 2025 and June 2025 and be required to be renewed for a three-year term by June 30, 2025, using the expiration dates proposed by Staff in Attachment A. Staff further recommended that the Commission direct the suppliers to file for their license renewal by December 15, 2024 and pay a \$1,000 license renewal fee. Staff advised that the Commission should state in its Order that any supplier listed in Attachment A that has not filed for renewal by December 1, 2024 should receive a warning from the Commission that its license status will be revoked pending a hearing, where the supplier must appear in person and be afforded an opportunity to request reconsideration of the automatic revocation.

Staff also recommended that any supplier that the Commission has not approved for renewal by the supplier's license expiration date should receive notice of an in-person license revocation hearing. Staff proposed that this process be repeated annually for the remaining suppliers.

¹ See Attachment B.

² See Attachment A.

The Commission approves Staff's proposed staggered license expiration dates for the first one-third of existing electric and gas supplier licenses as listed in Attachment A. The deadline for applying for a three-year license renewal shall be January 15, 2025, with Commission warnings and revocation hearing notices going out on January 3, 2025 to suppliers who have not yet filed renewal applications. Additionally, a designated representative of a licensee shall complete a Commission approved training and educational program prior to the expiration of the license.

Staff shall provide a proposed expiration schedule and renewal filing deadlines for all licenses expiring after June 2025. For 2026 and thereafter, the renewal application deadline for expiring supplier licenses shall be January 15.

Staff proposed three application forms for Commission approval: (1) the supplier license renewal application, (2) the energy vendor application, and (3) the energy salesperson application. The Commission approves the energy vendor and energy salesperson applications as proposed and approves the supplier license renewal application with revisions. The application forms are included as Attachment B and shall be posted on the Commission website with the ability to be filed online.

By Direction of the Commission,

4. Actions Against Licenses: (Provide the following information for the Applicant.)

- ☐ Actions such as Suspensions/Revocations, Limitations, Reprimands, Fines, Consent Decrees or other similar actions have been taken or are pending against the Applicant. If checked, provide an attachment describing the action; and include docket numbers, offense dates, and case numbers, if applicable.
- ☐ No such action has been taken

5. Financial Requirements

An applicant for an energy salesperson license must provide the name and license number of the licensed retail supplier that the energy salesperson is associated with. Additionally, the applicant for an energy salesperson license must provide a suitable bond (or proof of a bond held by the applicant's associated retail supplier) in the amount of \$10,000 covering the applicant for any illegal activities taken by or negligent harms caused by an energy salesperson in connection with their employment or association with that licensed supplier. In the event that the licensed supplier is exempted from the bond requirement, the supplier must provide a letter explaining that the supplier assumes responsibility for the energy salesperson's conduct that contradicts Maryland law.

6. Technical and Managerial Competency: The Applicant must submit, in an attachment, a statement of technical competency. The attachment should also include a description of the Applicant and current operations, intended operations in Maryland, past work experience, business plans, and other items or information that demonstrate technical and managerial competency.

7. Notice of Required Compliance: The Applicant is hereby notified that it is required to comply with the following:

- a. The Applicant may be required to submit bonds, as applicable, in order to ensure financial integrity or the payment of taxes.
- b. The Applicant must update this Application with the Commission within 30 days of a change to 1, 2, 3, or 4.
- c. Except as set forth in paragraph (b) above, provide annual updates of all items that have changed in the Application. The annual update should be provided to the Commission within 120 days of the end of the supplier's fiscal year.
- d. Supplement this Application in the event the Commission modifies the licensing requirements, or requests further information.
- e. Agree that it will not present itself as an energy salesperson in Maryland, without a license from the Commission.

- f. Pay all fees imposed by the Commission and any State and local taxes.
- g. Acknowledge that the license to sell electricity and electricity supply services is not transferable without prior Commission approval.

8. Affidavits Required: The Applicant must supply Affidavit of General Compliance to the Commission with the completed Application. The affidavit is included with this Application packet and must be executed by the Applicant (or representative with authority to bind the Applicant) in compliance with Maryland law. The Affidavit must contain the following statements on behalf of the Applicant:

- a. Agreement to comply with all terms and conditions of applicable electricity company tariffs and agreements with electricity companies.
- b. Agreement to comply with all applicable federal and State consumer protection and environmental laws and regulations, and Maryland Public Service Commission regulations and requirements.
- c. Agreement to comply with all applicable State and local tax and surcharge requirements.
- d. Statement that the Applicant has obtained all the licenses and permits required to operate the proposed business in the State of Maryland.
- e. Agreement of Non-Disclosure and No Reselling of customer data provided to the Applicant by any Maryland electricity distribution company.
- f. Statement that the Applicant:
 - 1. Has had no civil, criminal or regulatory sanctions or penalties imposed against it within the previous ten years pursuant to any State or Federal consumer protection law or regulation; and has not ever been convicted of a felony; or, alternatively
 - 2. Has disclosed by attachment all such sanctions, penalties or convictions.
- g. Statement that the Applicant:
 - 1. Is not under involuntary bankruptcy/insolvency proceedings including but not limited to, the appointment of a receiver, liquidator, or trustee of the supplier, or a decree by such court adjudging the supplier bankrupt or insolvent or sequestering any substantial part of its property or a petition to declare bankruptcy as to reorganize the supplier.
 - 2. Has not filed a voluntary petition in bankruptcy under any provision of any Federal or State bankruptcy/insolvency law, or its consent to the filing of any bankruptcy or reorganization petition against it under any similar law; or without limiting the generality of the foregoing, a supplier admits in writing its inability to pay its debts generally as they become due or consents to the appointment of a receiver, trustee or liquidator of it or of all or any part of its property.
- h. Statement that the information, statements and documents submitted in connection with the Application are true and correct.

9. **Further Developments:** Applicant is under a continuing obligation to amend its Application if substantial changes occur in the information upon which the Commission relied in approving the original filing.

Pursuant to the Code of Maryland Regulations (“COMAR”) Title 20, Subtitle 51, Chapter 2, Section .03 – An Applicant shall immediately inform the Commission of any material change in the information provided in the Application during the Application review process.

Pursuant to COMAR Title 20, Subtitle 51, Chapter 3, Section .01 – within 30 days of a material change, a licensed supplier must update or supplement the information required in the Application under COMAR 20.51.02.02B(1), (4) and (5).

10. **Proof of Age.** Provide proof that the applicant is at least 18 years of age.

11. **Attach the receipt from fingerprinting.** (Note: fingerprinting is to be completed {using Livescan Fingerprint Form provided by Transportation Division) at the Criminal Justice Information System (CJIS) located at 6776 Reisterstown Road in Baltimore. That I, **Name**, as Principal and **Insurance Co.**, a company authorized to transact surety business in the State of **Maryland**, as Surety, are held and firmly bound unto **Maryland Public Service Commission**, as Obligee, in the penal sum of **Five Thousand (\$5,000.00) DOLLARS**, lawful money of the United States of America, for payment of which, well and truly be made, we hereby bind ourselves, our heirs, executors, administrators, legal representatives and successors, jointly and severally, firmly by these presents.

WHEREAS, the Principal has obtained or is about to obtain, from the Obligee, a license to do business as an **Energy Vendor** in Maryland under the Maryland Annotated Code, Public Utilities Article, § 7-507 et seq. and Code of Maryland Regulations, Title 20.

NOW THEREFORE, THE CONDITIONS OF THIS OBLIGATION ARE SUCH, that if the said Principal shall comply with the provisions of the said Code, licenses, all applicable Ordinances, Rules and Regulations, and any Amendments thereto, then this obligation shall not be payable, but shall otherwise remain in full force and effect, subject to the payment as set forth below.

This obligation shall become effective on the _____ day of _____, _____, and shall remain in force until cancelled.

PAYMENT under this bond shall be due if the Commission determines that **Name** is financially insolvent or unable to meet its obligations as a licensed **Energy Vendor** in Maryland. **Insurance Co.** will permit the Commission to direct that the proceeds of this bond be paid or disbursed to satisfy the electricity supplier's financial obligations to the Commission or other Maryland governmental entity. **Insurance Co.** will permit a Maryland court to direct proceeds of the bond be paid to a person that has obtained a judgment against a licensed supplier and has previously attempted to collect the judgment through all other means available through the Court.

PROVIDED, that the Surety may terminate its liability hereunder as to future acts of the Principal at any time by giving sixty (60) days written notice of such termination to the Obligee.
